

Major Preliminary Examination Proposal

Name: Nathan Hess	Has met with his/her Major Preliminary Examination Committee and together they propose the following:
-------------------	---

Topic of student's Preliminary Examination: The contribution of gaze behavior to 3-dimensional motion perception
Student's main area of study: Visual perception

The student's preliminary reading list has been approved by the Committee:

☒ Yes *(Please attach copy of reading list.)*

Format of Exam: _____

_____ Written Exam
 _____ Review Paper and Presentation
☒ Grant Proposal and Presentation

This proposal fulfills the goal of the major preliminary examination to demonstrate the student's scholastic competence in a relatively broad area of psychology (for details, see Doctoral Student Handbook).
